Kick off the new year with these

Ron Becht
Senior Vice President & General Manager

Warm up your winter with these hot products. You'll find this catalog is packed to the brim with new items…and new ways to make your job easier. So start off your new year on the right foot.

Take a look at the new JABRA® FreeSpeak. This breakthrough headset lets you talk hands free without cords—on a cell phone.

Or, check out the EnGenius 4-line phone that gives you up to 36 *cordless* extensions. Here and on the facing page are just a few of the ideas you'll find in this catalog.

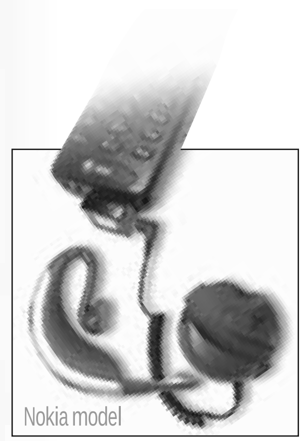

Leave your cell phone in your briefcase, and talk hands free, cord free. Read about the JABRA FreeSpeak™ on page 59.

This headset (shown in its cool holder/charger) connects instantly, wirelessly to your Bluetooth phone.

Don't have a Bluetooth-ready cell phone? Choose from the standard 2.5 mm and Nokia models.

Also inside

hot, new products.

Why race back to your desk to answer your phone?

Stepped away from your desk and can't hear your phone when it rings? Then consider this: the new GN 1000RHL remote answerer. Upgrade the functionality of your GN 9020 cordless headset, GN Ellipse, or GN 9050 wireless amplifier with the 1000RHL. It automatically raises and lowers the handset for you. Best of all, you'll be completely wireless when you're on the phone. The GN 1000RHL works with all business phones. Only $79.99.
See page 9 for details.

The GN 4150 is compact, so it takes up very little deskspace.

Get all the benefits of a hands-free headset—at a low price.

First-time headset user? Check this out: the GN 4150 Amplified Headset. The GN 4150 is your ticket to hands-free calls. And at $99.99, it's easy on your wallet. Turn to page 22 for more infomation.

Get big *wireless* sound in your living room.

Whether you're watching a movie, or kicking back and listening to music, you'll like these new Sennheiser wireless headphones. They make it sound like you're right there—in a movie theater or at a concert hall. And because they're wireless, they let you get up and grab a snack without taking them off. Go to page 51 to read the full story on these headphones.

4-Lines! Up to 36 extensions! And no cords to trip you up.

EnGenius makes it easy for you to manage your calls and keep your team connected—without the cords. This powerful new 4-line cordless phone system works like a dream. No cords to set you back with rewiring or installation costs. Add up to 36 cordless extensions. Read all about it on page 41.

a faster, easier workday

Find out what a headset can do for you.

So long neck pain!

Comfort is a good reason for most people to try a headset. Gripping a receiver with your shoulder can cause acute neck, shoulder, and back pain. A hands-free headset can solve the problem. It also helps reduce fatigue when you're on the phone for long periods. And that's just part of the story.

It's a multi-tasker's ultimate weapon.

A headset lets you use 2 hands instead of just 1. Check your e-mail while you're talking or waiting on hold. Search files, jot notes, and more. Try a wireless headset and walk down the hall, supervise, freshen your coffee... and wonder how you ever got along without one.

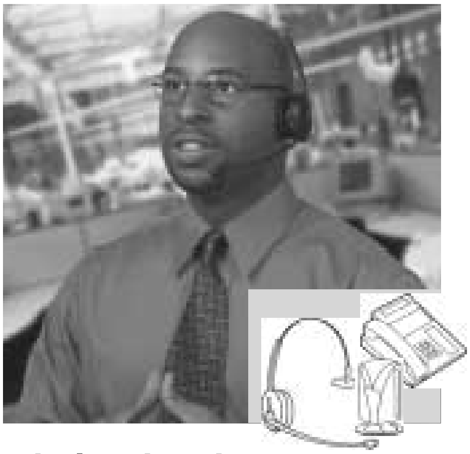

Here's how to connect your headset!

Most business phones don't include jacks to plug in headsets. A headset amp is your instant connection! Both GN Netcom and Hello Direct amps work with nearly every phone out there. Each amp puts volume, mute, and more at your fingertips.

Try the GN Universal or the Hello Direct Pro, the workhorse amplifiers. Or opt for a multimedia amp, and connect to your PC, too! And with 2 wireless amp options—GN Ellipse and GN 9050—you can take your corded GN Netcom or Hello Direct headset cordless.

Talk hands free, comfortably on

Wireless headset systems for phones and systems

Need to stay mobile? Opt for a wireless headset system. The GN 9020 is the world's only truly wireless 2.4 GHz headset. Or match a GN Netcom or Hello Direct corded headset top to a wireless amp such as the Ellipse or GN 9050. Cellular users! Don't miss the JABRA® FreeSpeak™ wireless headset for cell phones. It's the newest, smallest, coolest thing to happen to wireless!

See pages 8 and 59.

Headsets for corded phones and phone systems

Whether you're on the phone for an hour or all day, a headset can work wonders for your comfort, productivity ...even your mood. All of our headset systems should work with the phone on your desk. Choose the style or feature set that works best for you. Does your phone already have a headset jack? We have headsets that connect directly to your phone. No amp needed.

See pages 6 and 7.

starts with a HEADSET

Not all headsets are built the same.

We don’t waste your time and money on low-quality models. Why? “Bargain” headsets sacrifice sound quality and comfort—the two most important things to look for in a hands-free system. It makes sense to use the best headset available—such as the ones you see on pages 6–7.

every one of your phones! Here’s how.

Headsets for cordless phones

Place, receive calls while you’re hands free and on the move. All the cordless phones you’ll find at Hello Direct are headset compatible. Just connect a headset to the handset’s 2.5 mm jack. Now you’re cord free, hands free. Keep working and talking anywhere in your home or office. Order a headset and cordless phone together and save $$.

See page 23.

Headsets for cell phones and 2-way radios

If you’re taking calls in rush hour traffic on your cell phone or coordinating your team via 2-way radios on the worksite, a headset lets you keep your mind and hands on what you’re doing: driving, transporting materials, or operating machinery. Slip on a headset and enjoy the hands-free safety and freedom it provides.

See page 58.

Headsets for your PC

Use a headset with your phone *and* computer. You’ll be able to place and receive phone calls, talk via the internet, dictate memos, use voice recognition software, or listen to music privately. Try a high-quality single-ear headset that lets you keep an ear to what’s going on around you. Or use a dual-speaker stereo headset when you want rich sound with music and games.

See page 23.

Cordless headsets

Walk, work, talk...hands free and cord free. The GN Netcom 9020 is the world's only totally cordless headset! It's lightweight, comfortable, and powerful.

Over-the-head headsets

Looking for the ultimate in stability and comfort? Both the top-shelf GN Netcom and value-priced Hello Direct over-the-head headsets deliver this and so much more.

★ Comfort

How a headset feels for the number of hours it should be worn.

★ Sound quality

How clear and crisp a caller sounds to you and how easily you can hear your caller's every word.

★ Durability

How well the headset holds up to constant wear and tear.

★ Background noise level

How clearly the headset's mic transmits your voice, and how speaker design reduces background noise.

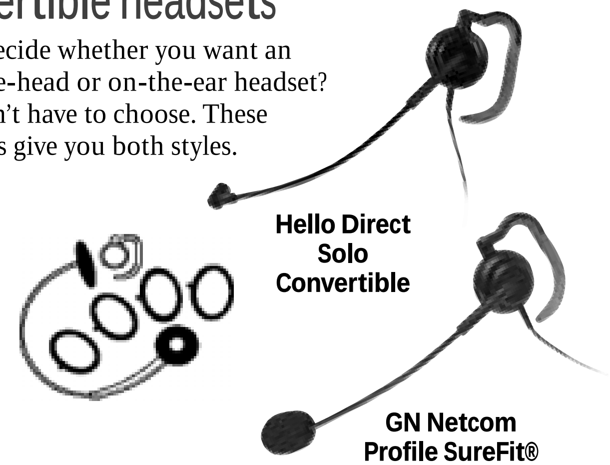

Over-the-ear headsets

Don't like anything on your head? Opt for over-the-ear headsets. They're so lightweight and discreet, you may forget you're wearing one.

Convertible headsets

Can't decide whether you want an over-the-head or on-the-ear headset? You don't have to choose. These headsets give you both styles.

wireless FREEDOM

Here's mobility—at a value price.

If you've ever been hesitant about buying a wireless amp, now's the time to give one a try. And the GN Netcom 9050 is a good place to start. This 2.4 GHz wireless amplifier strikes a perfect balance between performance and affordability.

Sure, you may see competitive products that appear to be in the same price range. But look closely. They may not use 2.4 GHz technology. Or they may include just the wireless amplifier alone (in the neighborhood of $300)…and ask you to buy the headset on top of that.

Talk on the go! Clip the 9050 to your belt.

This GN Netcom 9050 is a complete setup, with both the wireless amplifier and the comfortably lightweight headset included in the price. It's truly an exceptional value, especially when you consider the high quality of the components.

- **Headset options** include the full family of Hello Direct headsets. Choose from the Ultralight EX, Ultralight OP, Solo® II, and Solo Convertible. Call for more information.
- **6-Hour battery life** Order a spare battery (Item #6485D) for 12 hours of power.
- **Volume, remote handset lifter, and mute controls** are built into the cordless pack.

It's the best corded headset you'll find...anywhere.

When you're ready for the top-of-the-line headset, opt for the GN 2100 Flex. Whether you work in a call center or private office, you'll like the way it outperforms other headsets you may have tried. It's lightweight, stylish, and packed with GN quality and reliability. Choose from 2 versions: single-speaker or dual-speaker.

Dual version available

- **Noise-canceling mic** shuts out the din of a busy office.
- **PureSound™ speaker** boosts both high and low frequencies for true-to-life sound quality.
- **Soft leatherette ear cushions** are very comfortable.
- **Rugged, adjustable** DuraFlex™ mic boom swings away for extra convenience.
- **Custom fit** offers superior stability. The 2100 Flex's click-stop headband gives you a fit you may never have to adjust.
- **3 Amp options** include the workhorse Universal, the PC-savvy Multimedia, and the Ellipse wireless amp with a 200-foot range. Each lets you connect your Flex headset to any phone.

The amplifier is what lets you connect your headset to virtually any phone.

Use your headset up to 200 feet from your desk with the Ellipse wireless amp.

and STYLE

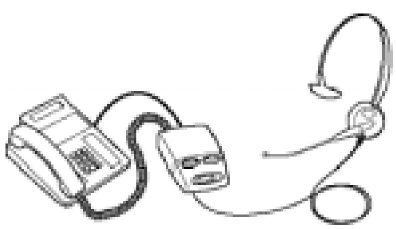

At last, a tube-style headset with superior sound.

The GN Netcom 2100 SoundTube headsets are taking tube-style headsets to the next level. Using exclusive sound technology and special metal alloy voice tubes, these headsets deliver superior sound quality over traditional plastic tubes. How do they do it? The alloy tube eliminates standing sound waves that cause reverberation and distortion. That's big news if you've been putting up with the shoddy sound of the old plastic tubes.

Dual version available

- **Swing-away boom** lets you move the microphone out of the way for beverage breaks.
- **Quick-disconnect** feature provides an easy way to step away from the phone without disconnecting the call or even removing your headset.
- **Replaceable mic tips** are easy to clean, far less expensive to replace compared to other brands' entire tube assemblies. Six tips are included with each headset.
- **3 Amp options** include the workhorse Universal, the PC-savvy Multimedia, and the Ellipse wireless amp with a 200-foot range.
- **2 Versions available:** single-speaker or dual-speaker.

Your GN Netcom amp is compatible with virtually every phone.

Walk, talk, work up to 200 feet from your phone. Try the Ellipse wireless amp.

designed for:

Individuals who want the best sound in a tube-style headset. Can be worn comfortably 6–8 hours a day.

Here's our #1 best-selling headset…ever.

The Ultralight EX has been the best-selling item in this catalog 3 years running. At 1.7 ounces, it's the lightest over-the-head, professional-quality headset you'll find anywhere.

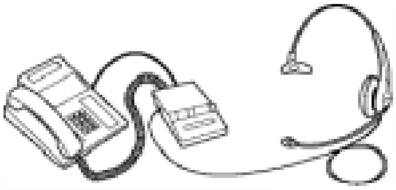

Dual version available

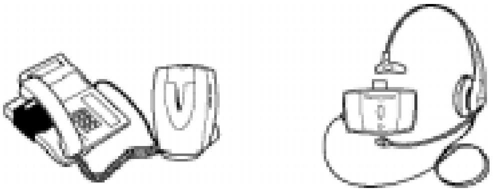

The Ultralight EX has all the trimmings you'll find in high-quality headsets—except the high-end price tag.

How comfortable is it? Very. In addition to its light weight, the Ultralight EX ear cushions (both foam and leatherette) are super-soft and easy on your ears. And you won't have to wedge a handset between your ear and shoulder. Need to concentrate on your callers? Order the Ultralight EX Dual, which covers both your ears.

- **Lightweight speaker** delivers superb sound. You won't have to strain to hear your callers.
- **Coated-alloy headband** withstands numerous twists and bends.
- **2-Year unconditional warranty** included.

At your desk and on the phone? Opt for a desktop amplifier: the Pro or Virtuoso.

Choose the GN 9050 wireless amp to talk hands free up to 150 feet from your desk.

profile, DISCREET

Better sound + better fit = best over-the-ear option.

The Hello Direct Solo II is the headset that fits the way you want it to. Its flexible backbone can be shaped to the exact contour of your ear for excellent stability and comfort.

This headset weighs just an ounce, so you don't feel bogged down when you're talking on the phone. The noise-canceling microphone is standard on the Solo II, as on all Hello Direct headsets. It helps you sound your best to your callers by filtering out extraneous noise.

- **No headband** to interfere with your hair.
- **Compact, responsive speaker** delivers clear sound, and rests lightly against your outer ear.
- **Lightweight price** makes it easier than ever to enjoy superior comfort.
- **2-Year unconditional warranty** protects your investment.
- **3 Amplifier options** included. Choose from the workhorse Pro with built-in volume and mute controls, the multimedia Virtuoso™, or the wireless GN 9050 with 150-foot range.

designed for:

Professionals in light to moderately noisy environments who are on the phone 6 or more hours a day.

Here are 1…2…3 ways to wear a single headset.

The GN Netcom Profile SureFit headset delivers 3-in-1 flexibility. Wear it with the flexible earhook, earloop (4 sizes included), or fully adjustable headband. And comfort isn't the only thing this compact headset offers. You'll enjoy GN Netcom reliability and sound quality, too. Opt for the advanced ultra-noise-canceling version for noisy offices.

- **Profile Flex SF** (Item #6364D) includes a flexible boom and noise-canceling microphone.
- **Profile Flex UNC** (Item #6366D) is ultra-noise-canceling—it cuts more background noise than any other headset in the industry today—up to 97%. Pivot the telescoping boom out of the way when you're not using it.
- **Flexible earhook** gives you stable comfort. It's handy when you have to take your headset on and off throughout your workday. Or you can wear it with the earloop or headband.

Wear the Profile with the flexible earhook…

…or a secure earloop…

…or the super-stable headband.

Order the Universal or Multimedia desktop amp to take calls at your desk.

Take your calls when you're on the move. Just grab a GN Ellipse wireless amp.

It's the headset you may never have to replace.

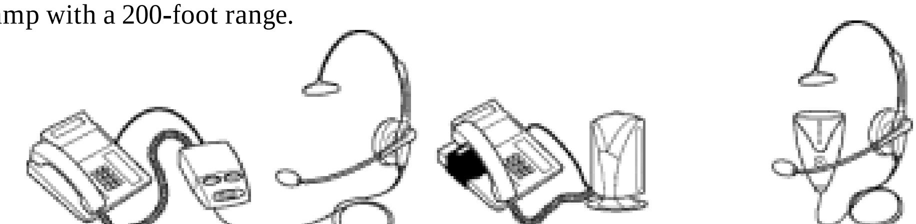

Dual versions available

You may be as busy as a high-volume call center. So you may not want to gamble on new headset solutions. Instead, you need to go with what works and what lasts...right out of the box. And that's precisely what ADD*vantage* Plus headsets do. They're favorites with both managers and their sales reps.

What makes these workhorse systems so good? Great sound, lasting comfort, and top-notch durability. It's no surprise that the ADD*vantage* Plus has become the standard in call centers all over the U.S. and Europe.

- **Noise-canceling mic** eliminates background noise even in the busiest environments.
- **BroadBass™ speaker** delivers rich, full sound.
- **DuraFlex™ cable** shields against radio interference.
- **Click-stop headband** lets your reps adjust for a snug, yet comfortable fit.
- **Pillow-soft cushions** are easy on your ears...all day long.
- **2-Year warranty** protects your investment.
- **3 Amp options** include the workhorse Universal, PC-savvy Multimedia, and the Ellipse wireless amp with a 200-foot range.

Universal amp puts all the headset controls at your fingertips.

Need to supervise? Ellipse wireless amp lets you move around while you talk.

Background Noise
★ ★ ★

You've been on the lookout for a high-quality headset so you can talk hands free without forking over a small fortune. Well, you've just hit the jackpot. GN Netcom has just introduced the 4100 series headsets.

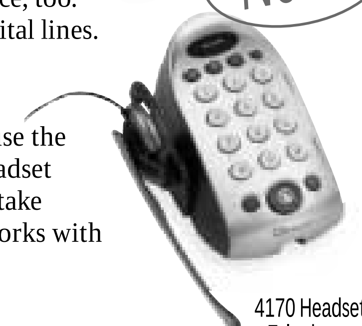

4150 Amplified Headset (Item #1843D)

New!

GN 4150 Amplified Headset
First up is the GN 4150 Amplified Headset. Even if you're not a regular headset user, the 4150 is easy to get used to. Take the headset, for example. It's convertible so you can choose how you want to wear it: over your head or over your ear. No matter which way you wear it, you'll hear and be heard clearly.

The Amplified Headset takes up very little of your deskspace, too. And it's yours for a low $99.99. Works with analog and digital lines.

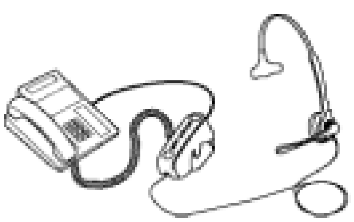

4170 Headset Telephone (Item #1849D)

GN 4170 Headset Telephone
Need a phone *and* a headset? Then go for the GN 4170 Headset Telephone. But this isn't your typical phone because the 4170 doesn't include a handset. You use the convertible headset instead. But just like a standard phone, you can make and take calls with the 4170…only this time you'll be hands free! Works with analog lines only.

Both systems include:

- **Noise-canceling microphone** screens out unwanted background sound to transmit your voice clearly.
- **Multimedia capabilities** mean you can use your headset for a variety of applications, such as talking over the phone or internet, listening to music, dictating notes, and more.

Connect the 4150 to your phone—analog or digital. *Voila!* You're hands free.

The 4170 has a built-in dialpad, and connects to your single analog line.

GN Netcom 4100 series headsets

Item #	Description	Price
1843D	GN 4150 Amplified Headset	**$99.99**
1849D	GN 4170 Headset Telephone	89.99
8070D	Extra 1-year Product Protection Plan	13.99

more accessories:

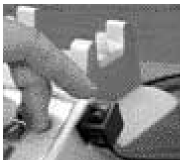

Use the GN 4150 with the Touch-N-Talk. It lifts your receiver so you can access your phone line.

Item #1275D $14.99

Manual busy indicator tells others when you're on the line.

Item #1520D $37.99

Cord free+hands free=total freedom.

Every cordless phone in this catalog comes with a built-in headset jack. That gives you the freedom to walk, work, and talk cord free, hands free anywhere in your office. Order the phone and headset together and save up to $40!

- **Ultralight EX 2.5 mm** gives you lightweight comfort. Its noise-canceling microphone screens out background noise. The compact speaker and sound cone channel sounds into your outer ear.
- **Ultralight OP 2.5 mm** is light on your head, but lighter on your wallet. It delivers many of the same features as the EX at a lower price. Its click-stop headband gives you a perfect fit every time.

PC call recorder and data logger

Keep permanent recordings of important calls. Capture every word on your computer! Just plug the Personal Call Logger in between your phone and sound card. Set it to record every call—or activate it manually on specific calls. Then use the included software to sort, play back, and even e-mail your audio files.

- **Simple connection** takes just a few minutes to install.
- **Digital/analog compatibility** means the Personal Call Logger will work with whichever type of phone you have.

Caller ID internet-lookup capability lets you seek out a caller's name and address by simply clicking on any recording.

Personal Call Logger

Item #	Description	Price
3755D	Call logger	$89.99

Digital recorders

Olympus all-digital recorders are compact and versatile. The included software makes it easy to send your recordings as e-mail attachments, too. And they're all USB compatible.

- **W-10** (Item #7663D) lets you record audio *and* capture images. You can synchronize voice recordings with images to create slideshow presentations.
- **DS-330** (Item #6777D) gives you instant connection to your PC through its USB docking station. Voice file management software is included.
- **DS-2000** (Item #6087D) uses removable memory cards. Upload files to your PC for editing, storing, and more.

Item #7663D (left) lets you record messages and capture images. It's ideal for real estate, shipping, insurance purposes, and more.

Item #6777D (below) is a 5.5-hour recorder with USB docking station and software.

Item #6087D (above) uses removable SmartMedia cards and file management software.

Cassette recorders

These recorders are low-cost answers for desktop recording. Each uses standard cassette tapes, which have the longest recording capabilities. Order yours today.

Cassette recorders

Item #	Description	Price
6273D	Panasonic RQ-L51 with record/playback interface	Save $20! **$119.99**
6683D	Panasonic RQ-L51 6-hour recorder	69.99
5997D	P3 5-hour LCD dialed recorder with Caller ID	199.99
2800D	P3 8-hour extended play recorder	99.99
	Extended warranty starting at	13.99

Please note: Requires full-sized cassettes. Item #5997D requires Caller ID service from your local phone company. Item #s 5997D and 2800D include telephone interfaces.

Record 6 hours on one tape with the Panasonic RQ-L51 (right). Includes NiMH batteries and AC adapter/charger.

The P3 5-hour recorder's LCD (Item #5997D) displays dialed calls and incoming Caller ID. The P3 8-hour recorder (Item #2800D, not shown) captures up to 8 hours on a single 120-minute cassette.

Recording interfaces

Here are 2 easy ways to connect a recorder to your phone. The record/playback interface lets you review recordings over the phone and leave them in voice mailboxes. Don't think you'll need the playback function? Grab the record-only standard interface. Both will work with virtually all phones.

Telephone recording interfaces

Item #	Description	Price
3697D	Record/playback interface for microcassette recorders	**$69.99**
2288D	Standard record-only interface for microcassette recorders	49.99

Please note: Interfaces require your phone to have a modular handset jack or modular base jack. They're compatible with single- and multi-line analog and digital phones.

Interfaces include 2.5 mm connector and 2.5 mm-to-3.5 mm adapter.

Conferencing? We've got

Bring the meeting to you.

Where is your next meeting, across town or out of town? Travel expenses and time can add up fast. Instead of going to meetings, why not bring them to you? Put one of these Polycom systems to work for you. Check out how many ways they can save you time and money.

- **These systems pay for themselves** by the time you've skipped traveling to meetings by air or car.
- **You arrive** at your destination in a matter of seconds instead of hours.
- **You'll be home** at the touch of a button instead of retracing your path.
- **Include everyone** in meetings so they're all kept in the loop.
- **Communicate** quickly, easily. No travel agents to call. No hotels to book.

"I replaced my phone with a VoiceStation. Now I can include my customers in conversations when I speak with the IRS on their behalf. How simple it is to conference!"

—Ruben T. Rios
Rios Income Tax and Bookkeeping Service
San Angelo, Texas

The best place for conferencing tools: right here!

If you want conferencing expertise, look no further. Hello Direct knows conferencing. Each team member knows teleconferencing systems inside and out. Ask them anything: your questions, your concerns, or your needs. They'll make sure you get exactly what you want.

What do you need?
A teleconferencer for your office? Or a complete system for the boardroom? From the simplest to the most sophisticated conferencing systems, you'll find them on these next few pages.

- **Teleconferencers** for your small, medium, or large group meetings.
- **Conferencing accessories** to enhance all meeting presentations.

If you don't see what you're looking for, give us a call. We'll help you find it.

Want it tomorrow?
No problem. If you're pressed for time, you can have your conferencing system delivered the very next day.

Call your Hello Direct conferencing specialist toll free today at 1-800-444-3556. We're here to help you.

the expertise.

Here's the ultimate teleconferencer.

You want your conference meetings to be perfect. Start with the Polycom SoundStation Premier®. It's the best teleconferencer there is, bar none.

Its full-duplex speaker delivers natural-sounding conversations. The super-receptive hypercardioid microphones track your voice even when you're moving around the room. Automatic gain control captures voices from all over the room so everyone can participate. The expandable Premier supports both additional microphones and the Polycom Satellite.

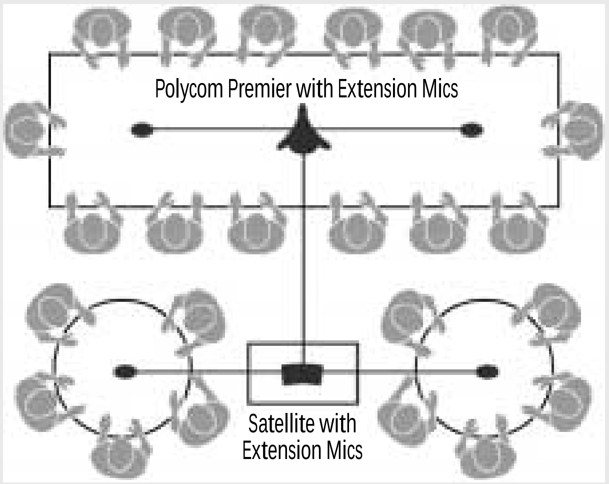

- **16-Character LCD** displays Caller ID, clock, and length of call for unsurpassed convenience.
- **Noise-canceling microphones** ensure people always sound their best, even in large rooms.
- **Remote control** gives you instant access to speed-dial, mute, and volume.
- **Color!** Choose from blue slate, sand drift, charcoal mist, and dark gray. Visit HelloDirect.com for more details.

Get high-end conferencing sound

Conferencers for medium rooms

Why put up with shoddy sound on conference calls?

Enjoying world-class sound doesn't mean you have to pay an out-of-this-world price. Try the Polycom SoundStation®.

It incorporates a full-duplex speaker so your conversations will sound clear, crisp, and natural. That's what sets this conferencing system apart from an ordinary, half-duplex speakerphone. Unlike the non-interactive, one-way conversations of half-duplex mode, full duplex is free-flowing. Talk as easily and as comfortably as you do during normal phone calls.

SoundStation is ideal for medium-sized team meetings. You can enhance collaboration and decision making while saving time, and reducing travel costs.

The expandable SoundStation® EX supports 2 extension microphones to cover larger team meetings.

Polycom SoundStation and SoundStation EX systems

Item #	Description	Price
2334D	SoundStation (non-expandable)	**$499.99**

8090D	Product Protection Plan	159.99

… even at your desktop.

Meet across the miles without getting up from your desk.

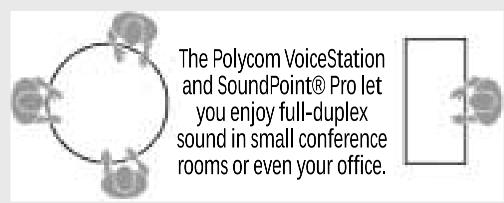

When it comes to personal teleconferencing, the Polycom VoiceStation™ has you dialed in.

A full-duplex speaker. Advanced clarity enhancements. Three super-sensitive 360° microphones. These components make the Polycom VoiceStation a far better idea than ordinary half-duplex handset speakerphones. It's ideal for offices and small conference rooms.

Quality you've come to expect.
Don't let the VoiceStation's flowing contours and compact size fool you. It gives you the robust sound quality Polycom is known for.

- **Full-duplex conferencing** ensures you'll never miss a word. You won't have to put up with ordinary speakerphones' echoes, distortion, and other limitations, either.
- **Compact size** means it takes up very little of your desk or conference table space.

More Info www.HelloDirect.com/security

Hello Direct is your #1 cordless resource.

Cordless phones are everywhere. And for good reason. They untie you from your desk so you can walk, talk, and work. No messy cords to get tangled in. We've tested hundreds of cordless phones and picked only the best. You can be sure the cordless phone you order from Hello Direct is the best for your workstyle.

You can count on many features in these phones, such as:

- **Headset jacks** let you connect a Hello Direct headset to your phone so you can talk hands free all day.
- **Digital answerers** capture all your messages while you're away from your desk.
- **Speakerphones** in base units and handsets let you turn your calls into impromptu conference meetings.
- **Digital spread spectrum technology** gives you better sound quality and enhanced security.
- **Caller ID on Call Waiting** lets you see who's calling before you pick up or click over.
- **2-Line capability** keeps you in control of all your calls.
- **And more** cool tools such as easy-to-read LCDs, speed-dialing, and dual dialpads.

Build a cordless office.
Whether you're working on 1, 2, or up to 4 lines, Hello Direct has a cordless phone system to fit your office—and your budget. Each system delivers a powerful set of features such as call transfer, intercom,voice mail, and more.

Every cordless in this catalog is headset compatible. Plug one in and talk cord free, hands free.

2.4 GHz!

2.4 GHz digital spread spectrum: the best.
This hot technology lets you take cordless calls farther—and with better clarity. It incorporates channel-scanning spread spectrum technology to give you the absolute best reception available. Plus, you get enhanced security against eavesdroppers.

The best 1-line phone, page 35

Cool 2-in-1 cordless, page 36

2-Line control, page 37

Cordless mini-system, page 38

2.4 GHz phones, just $100.

Looking for a cordless phone with 2.4 GHz technology for superb sound quality? Got it. How about a headset so you can talk hands free? Got that, too. But wouldn't that mean a sky-high price? Not a chance. These Panasonic value phones were made to fit every kind of budget.

- **Call Waiting/Caller ID** (Item #s 8087D and 8083D) lets you screen your calls before you pick up.
- **Plus** up to 50-station directory and dialer, navigator key, handset locator, 6 selectable ringer tones, reversible handset charger, flash, pause, mute, redial, and wall-mountable.

7481D	Panasonic GigaRange phone with Ultralight® EX Single headset	Save $40! $279.99
7480D	Panasonic GigaRange phone	249.99
8080D	Extra 1-year Product Protection Plan	59.99

The Panasonic GigaRange is wall-mountable.

Item #7480D has 2 dialpads. Place and receive calls from the handset or the base.

Uniden 2.4 GHz phone (Item #8055D)

This phone is an all-around great performer. You'll get 2.4 GHz, Caller ID/Call Waiting, speakerphone, and more.

- **Caller ID/Call Waiting** lets you screen calls. The log stores information on 50 calls.
- **Built-in speakerphone** gives you the option of talking hands free from the base.
- **Speed-dial** gives you instant access to 40 numbers.
- **Dual dialpads** in the handset and base let you make calls both at and away from your desk.

Uniden 2.4 GHz 2-line cordless phone

Item #	Description	Price
8056D	Uniden phone with Ultralight EX Single headset	Save $20! $199.99
8055D	Uniden phone	149.99
8075D	Extra 1-year Product Protection Plan	29.99

This Uniden phone (Item #8055D) includes a built-in speakerphone so you can hold conference calls.

Panasonic Basic 2.4 GHz phone (Item #8077D)

Don't let the price fool you. Even though it's an entry-level phone, it still packs plenty of muscle.

- **Caller ID/Call Waiting** lets you see who's calling you. 30-Station Caller ID memory logs your most recent callers.
- **3-Way conferencing** lets you make conference calls, and bring everyone in on conversations.
- **50-Station directory and dialer** gives you quick and easy access to all your important numbers.

Every cordless in this catalog is headset compatible. Plug one in and talk cord free, hands free.

Choose a cordless system that fits

At last! An expandable phone system for your 2-line small office.

Home or small office? It doesn't matter. Panasonic's got a phone system for both. The MultiTalk 2-line system is expandable and supports up to 8 cordless extensions. All you need is 1 wall jack. Then put a cordless handset in each room of your office—no messy wires to get in the way. Plus, you'll get to choose from cool features such as built-in answering machines, Caller ID, and hands-free headset compatibility.

- **Handset colors** make it easy to integrate your phone system into your workspace or home: silver, violet, and white.
- **Alarm clock handset** wakes you up and alerts you to all your meetings.
- **Intercom** gives you instant communication between cordless extensions.
- **5-Way conferencing** lets you bring everyone into the call.

your office…and your budget.

As your office grows, so does this phone.

Make your small (or home) office sound like a powerful corporation. Panasonic phone systems deliver many of the same high-end features—intercom, voice mail, and shared directories—without those big corporate price tags. Network up to 8 extensions on your 2 or 4 analog lines. They're easy to install and even easier to use. Call to order your Panasonic system today!

- **8-Hour NiMH battery** gives you enough power to last your entire workday.
- **100-Minute voice mail system** handles your calls with ease.
- **Pager alert** tells you when your mailbox has new messages.
- **Headset jack** lets you connect the lightweight Ultralight OP.

Get your team connected fast.

Is it a cordless phone or a 2-way radio? Both!

The EnGenius SN-920 phone system goes the distance for you. It sends signals up to 12 stories indoors, 250,000 square feet in warehouses, and 3,000 acres outdoors.

The system's base unit handles 1 line, and accommodates as many as 9 handsets. You can use the digital spread spectrum cordless handset as a phone and a full-duplex 2-way radio. Communicating with your co-workers has never been easier.

- **Digital security with frequency hopping** keeps your conversations private.
- **Caller ID/Call Waiting** lets you see who's calling before you pick up.
- **One-touch 30-number phone directory** stores the names and numbers of friends and colleagues.
- **NiMH battery** lets you talk longer than ever, and recharges in only 80 minutes.
- **Call transfer** helps you take command of the flow of your phone calls.
- **Vibration mode** alerts you privately to your calls.
- **Options** include headset adapter, high-gain antenna, leather pouch, belt clip.

HELLO Direct.

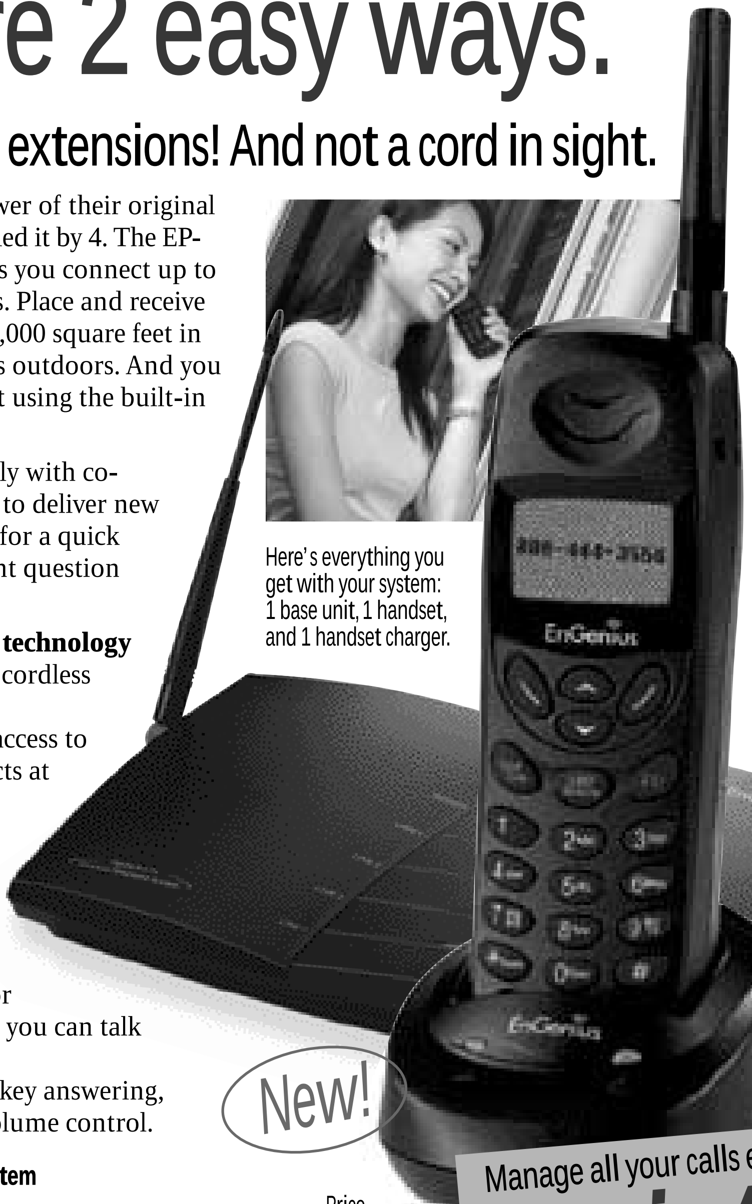

Here are 2 easy ways.

4 Lines! Up to 36 extensions! And not a cord in sight.

EnGenius has taken the power of their original cordless system and multiplied it by 4. The EP-436 4-line phone system lets you connect up to 36 extensions without wires. Place and receive calls 12 stories indoors, 250,000 square feet in warehouses, and 3,000 acres outdoors. And you can talk handset-to-handset using the built-in 2-way radio.

You'll communicate instantly with co-workers (up to 36 of them) to deliver new instructions, rally the team for a quick meeting, or get an important question answered immediately.

- **Digital spread spectrum technology** lets you enjoy crisp, clear cordless reception.
- **Call directory** gives you access to all your important contacts at the touch of a button.
- **Caller ID/Caller Waiting** lets you see who's calling you before you pick up. A great way to screen calls, too.
- **Headset compatibility** for your cordless handsets so you can talk cord free and hands free.
- **Loaded with extras:** any-key answering, redial, mute, hold, and volume control.

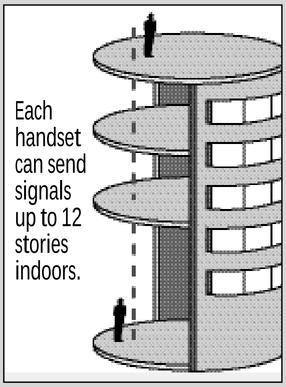

Here's everything you get with your system: 1 base unit, 1 handset, and 1 handset charger.

New!

EnGenius EP-436 4-line phone system

Item #	Description	Price
7641D	Cordless phone system (1 base, 1 cordless handset, 1 charger)	**$899.99**
7642D	Additional handset/charger	349.99
8085D	Extra 1-year Product Protection Plan	159.99

Communicate on the fly.

Cordless power and range are what these EnGenius phone systems are all about.

You can carry on conversations up to 3,000 acres outdoors, 12 stories indoors, and 250,000 square feet in warehouses.

But you don't just have to use the handsets as phones. You can use them as 2-way radios, too.

See, that's the beauty of these EnGenius systems. Instead of punching extension numbers to call up your co-workers, you can reach them at the push of a single button.

And don't forget, these systems accommodate up to 36 cordless handset extensions.

Manage all your calls easier than ever.

Now in 4 lines!

You won't find a more powerful phone system in this catalog.

Looking for corded phones? You'll find a

Here's an affordable phone with all the benefits of a headset.

If you've been on the lookout for a way you can talk hands free without forking over a small fortune, here's the answer: the GN 4170 Headset Phone. It's a headset and a phone rolled into one.

Choose your style of comfort. You can make or take calls just like you would with any standard phone. But this one includes a convertible headset instead of a handset. Wear it the way that's more comfortable for you—over your head or over your ear.

GN Netcom corded headset phone

Item #	Description	Price
1849D	GN 4170 headset telephone	$79.99

Handle more than just phone calls with this compact headset phone.

Manage calls hands free—and tap the power of your PC for call management. Just connect Zi Phone to your phone line and your computer's USB port. Use it for both regular and internet calls. Plus, set your PC to record important conversations, take messages when you're away, maintain your phone book, and much more.

- **Hello Direct Ultralight EX Single headset** lets you talk comfortably—and hands free—day in and day out.
- **Store your phone book** and provide quick, 1-click dialing for any entry. It will even import the listings you already have in Outlook or Outlook Express.

Zi Phone

FREE! **A $199.99 value!** Get a custom-produced on-hold presentation FREE from the manufacturer.

Be accessible no matter where you are.

You're far more accessible when callers don't have to try number after number to get a hold of you. Metro Tel call forwarders let you forward calls to another number—without your callers ever knowing.

Choose from 2 models: the basic and the deluxe. The deluxe version lets you route calls to as many as 5 outside numbers, and includes greeting messages.

These forwarders can route calls to one or several numbers.

You can turn the units off and on, and change your forward-to number remotely from any touch-tone phone. Have calls forwarded to your cell phone, home office, or another phone. The transfer is automatic, so callers will never know.

Easy to install.

They plug into your main line for incoming calls and into a second line for dialing out. Connect it to AC power. Then set your forward-to number (up to 18 digits) from any phone.

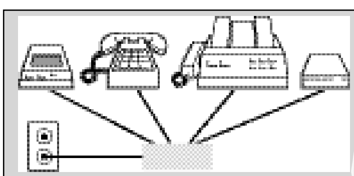

A special Toll-Guard feature is built into the device to prevent hackers from placing calls on your outgoing line.

Metro Tel call forwarders

Item #	Description	Price
8396D	Basic call forwarder	**$399.99**
8397D	Deluxe 5-choice call forwarder	499.99

Why pay for another phone line?

Eliminate the cost of extra dedicated phone lines. Simply connect your phone, answering machine, fax, or modem to one of these switchers. They'll route calls to the appropriate device automatically.

P3 cellular recorder
Now you can record calls on your cell phone! It's easier than ever to record calls when you're on the go.

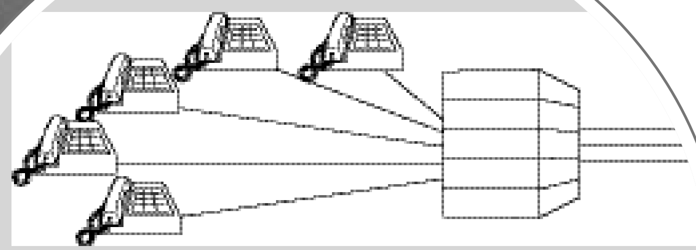

Systems for only 1 kind of

Intimidated by all the different phone systems on the market? Let us help you. We've done the legwork. We've tested the systems, pushed them to the limit. Hello Direct carries the phones that are best for your business. Call us today toll free at 1-800-444-3556.

Digital PBX

PBX systems receive the analog phone lines, then link extension phones via internal digital lines. Dialing 9 for an outside line? Does your phone have an LCD? You're on a PBX to which you can connect only digital phones (like the ones below).

Save up to 55% on hard-to-find PBX phones and systems!

Looking for new or replacement PBX phones? It can be tough to find them. That's why Hello Direct carries a huge selection of new and refurbished PBX phones and components. Refurbished phones have been tested and retested to work like new. Every PBX phone you order from Hello Direct comes with an 18-month extended warranty.

Choose from top names—which include Nortel, Avaya, Toshiba, Siemens, and Rolm—and save $$. Call today!

Check out pages 39-41

for 4-line expandable cordless phone systems from EnGenius and Panasonic. Keep everyone connected easily.

office: yours!

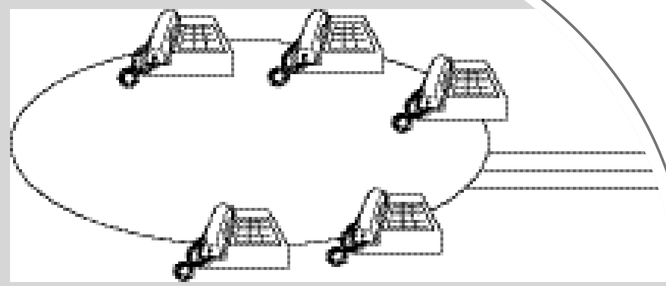

Build a 4-line, 12-extension system —1 phone at a time.

The AT&T 955 and 964 4-line KSU-less systems let you expand as you need to. Both are 4-line, 12-extension capable, and let you manage your phone lines easily. They're Centrex compatible, too.

- **Private voice mail** (Item #6849D) at each extension costs only a fraction of the price of a KSU or PBX system with voice mail.
- **Paging and intercom,** call transfer, Caller ID on Call Waiting, 200-name/number directory for each extension—all at your fingertips!
- **Built-in speakerphone** lets you conference at the touch of a button.
- **Keep both hands free** by ordering a Hello Direct headset. The amplifier is built into the phone.

KSU-less phones

KSU-less phones give you an easy way to build a system using the analog lines you already have. With as few as 2 phones (and as many as 12), you can enjoy system features such as call transfer, intercom, and more. How? All the "system smarts" are built in. KSU-less phones are an affordable choice for small offices.

4 Lines, up to 12 extensions

The Bizfon phone system is ideal for phone-intensive offices with 2 to 32 people. The Bizfon 680 is extremely powerful, yet simple to use. It's the affordable way to help your company sound big right away.

Setup is simple.

Just dial 299, and you're connected to Bizfon. Its service team can help you set up your new system, as well as handle expansions and changes.

The comprehensive solution.

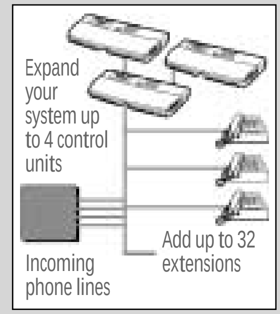

Other systems' voice mail options cost as much as the bare bones hardware itself. Bizfon comes standard with fully integrated voice mail. Plus, you can rely on a customizable auto-attendant and follow me call forwarding, capabilities many big business systems don't offer even as options.

A helping hand rather than a hand off.

Each 680 control unit includes 1 year of BizCare—bundles include 2 years—so you'll stay connected to the experts. You'll receive ongoing configuration help and backups at a remote site. Problems with your Bizfon? You'll get an overnight replacement including pre-programming of your original configuration and settings.

- **BizTouch3 Call Appearance speakerphone** emulates those expensive PBX phones. Includes Caller ID, speed-dial, more.
- **BizTouch2 Call Appearance speakerphone** lets you toggle between 2 calls, access to all features, including Caller ID.
- **BizTouch3 Line Appearance phone** offers line-in-use indicators, 1-button voice mail access, and much more.

It's easy to expand!

TalkSwitch and Bizfon phone systems let you network up to 4 units together. With the most powerful systems, you can connect up to 24 lines and 32 extensions.

Compatible with your analog phones.

The systems on these 2 pages are fully compatible with the corded and cordless analog phones you already have.

Use a single headset to take calls, talk on the internet, and more.

Virtuoso is the only system that lets you use your headset to talk on the phone (digital PBX or analog) while recording or playing back from virtually any source. Talk over the internet, too.

Hello Direct Virtuoso

The Multiplier lets you talk on the internet (VoIP), listen to MP3s, CDs, and tapes with your callers. Dictate notes, record phone calls, and transcribe recordings, too.

Your Virtuoso becomes the hub of an integrated desktop multimedia system.

Hello Direct Virtuoso™ Multimedia headset system (patent 5,892,823)

Item #	Description	Price
7711D	Virtuoso/recorder package: Virtuoso, Ultralight® EX Single headset, Olympus J500 recorder (page 27) — Save $30!	$239.99
7461D	Virtuoso with Ultralight EX Single headset	199.99
7464D	Virtuoso with Ultralight OP Single headset	169.99
7463D	Virtuoso with Solo® II headset	199.99
7462D	Virtuoso with Ultralight EX Dual headset	219.99
7465D	Virtuoso with Ultralight OP Dual headset	189.99
6440D	USB audio adapter	59.99
8080D	Product Protection Plan	59.99

Please note: Virtuoso Multiplier requires Sound Blaster® compatible sound card or the USB adapter. Software and hardware required for multimedia applications are not included.

Do it all: games, music, phone calls.

No need to constantly plug and unplug a headset. Sound Switcher offers a simpler solution. It works like a switchboard between your headset and your desktop sound sources.

Plug in 4 devices. There's a connector for your analog phone line. Another for your PC's sound card. And 2 accessories. You can connect a modem, an FM radio card, or even an external audio device. Switch between them at the push of a button.

Sound Switcher is self-powered, so you don't have to worry about finding a free outlet. And, it comes with a detachable bracket that you can use to mount it out of the way, under a cabinet, shelf, or desk. For analog lines only.

Sound Switcher™ multimedia headset hub

Item #	Description	Price

8393D	HDC 451 portable headphones	$109.99

Each self-contained system packs up neatly into a latching carry case.

Own your own PA system.

Talk loud, but carry a small PA system. These Fender Public Address (PA) systems amplify both speech and music—with crisp, clear sound—all the way to the back of the group. And they're completely portable. Set one up anywhere in less than 5 minutes!

Renting a PA every time you need one can get expensive. Some places charge up to $100 a day. Own your own Fender system, and it pays for itself after only a handful of times using it.

- **Passport PD250** gives you 250 watts of stereo output with digital reverb to provide clear amplification for audiences up to several hundred people.
- **Passport PD150** delivers 150 watts of stereo sound for audiences up to 100 people.
- **P-10w** is great if you're on the go. Includes a wireless microphone and 27-watt output.

Call today. Have your own PA system tomorrow! Ask about overnight shipping.

Ultra-portable travel system (Item #8453D) weighs just 6.5 lbs. Comes with a rechargeable battery and wireless mic.

Bring big sound to a personal level.

Whether you're watching a movie, or kicking back and listening to music, you'll like these new Sennheiser wireless headphones. They make it sound like you're right there—in a movie theater or at a concert hall. And because they're wireless, you can get up and grab a refreshment without tripping over any wires.

- **Sennheiser RS 65 surround sound headphones** (Item #8391D) add depth and clarity with virtual surround sound. TV takes on a home-theater aura. Music sounds like you're in a concert hall. Computer audio is livelier. And you're free to move around 100 feet.
- **Sennheiser RS 45 stereo headphones** (Item #8392D) bring you stereo sound through your radio, TV, or computer. Plus, you've got 100 feet to roam around.

Order today. Here are 4 easy ways.

1. *Call toll free:* ***1-800-444-3556*** *Monday–Friday, 5 a.m.–5 p.m. PT*

2. *Use the internet:* ***HelloDirect.com***

3. *Fax toll free:* ***1-800-456-2566***

4. *Mail your order to:* *Hello Direct 5893 Rue Ferrari San Jose, CA 95138-1857*

Get the products you need, the service you deserve.

Call the Hello Direct Product Support Specialists at 1-800-444-3556 toll free for expert assistance. They're ready to help you with applications and problems, plus any installation or compatibility questions you may have.

How soon would you like it?

Please call by 6:30 p.m. Eastern Time (3:30 p.m. Pacific Time) for best service. After credit approval, we'll ship your order to arrive in 1 or 2 business days. Over 90% of all orders received are shipped the same day.

Hello Direct 30-day unconditional money-back guarantee.

If, for any reason, you're not 100% satisfied with any product you've received from us, simply contact Hello Direct within 30 days of your invoice date. If our Technical Support Specialists can't resolve the problem, we'll gladly arrange for an exchange, company credit, or refund. Original invoiced shipping charges are not refundable. PBX phones and Polycom VoIP products are excluded from the 30-day unconditional money-back guarantee.

Hello Direct corded headset unconditional warranties.

All new Hello Direct brand corded headsets are warranted to the original owner for 2 years from the date of purchase, and are subject to all terms, conditions, and limitations set forth in the standard Hello Direct warranty, which is included with each product shipped and available at Hello Direct.

Credit is readily available.

Companies listed with Dun & Bradstreet can establish accounts easily. If your company is not listed, please call 1-800-444-3556 by 6:30 p.m. Eastern Time (3:30 p.m. Pacific Time).

Your satisfaction is important.

If a product you ordered doesn't meet your needs, we want to know about it. If you need to return a product, call us toll free at 1-800-444-3556 within 30 days of the invoice date to receive your return authorization number. Hello Direct does not accept returns without return authorization numbers. Repack the item in its original carton with all manuals and materials. You'll be charged a 25% restocking fee if this procedure is not followed.

Help us conserve resources.

We want to send out catalogs to everyone who wants them, but also want to avoid wasting natural resources by sending catalogs that aren't used or wanted. Mail or fax us copies of labels from unwanted catalogs. Please note incorrect names or addresses, duplicate mailings, or a desire to stop receiving catalogs.

We occasionally make our customer list available to a limited number of reputable, carefully screened companies whose products you may find of interest. If you'd rather your name and address not be shared, call us toll free at 1-800-444-3556.

Protect your investment.

Has this happened to you? A product you bought breaks down just after the manufacturer's warranty has expired. With the Hello Direct Product Protection Plan, you can extend your product's warranty by a year. So even if the manufacturer won't cover you, we will.

- **24/7 service** spares you having to wait on hold.
- **Advance replacement** gets you an identical, closely similar, or better replacement without delays or hassles.
- **100% coverage** of parts and labor, including normal wear and tear.

On site, but out of sight?

These 2-way radios put you in touch with co-workers or family members...instantly. Gather your group, give new instructions, change a location, with the push of a button.

Where you can use these radios:

Application	Heavy duty	Standard duty	Light duty
Construction sites	●		
Security and patrol	●		
Warehouses	●		
Campuses	●	●	
Resorts, golf courses	●	●	
Hotels, convention centers	●	●	
Hospitality	●	●	
Expeditions	●	●	●
Recreation			●
Family			●

The XTN multi-unit charger (Item #6439D) lets you charge up to 6 radios or batteries simultaneously from a single outlet. Its cloning function copies programs and menu settings to all the radios.

Accessories galore!

Headsets, chargers, spare batteries, hands-free speakers, and more at www.HelloDirect.com/radios.

Standard duty

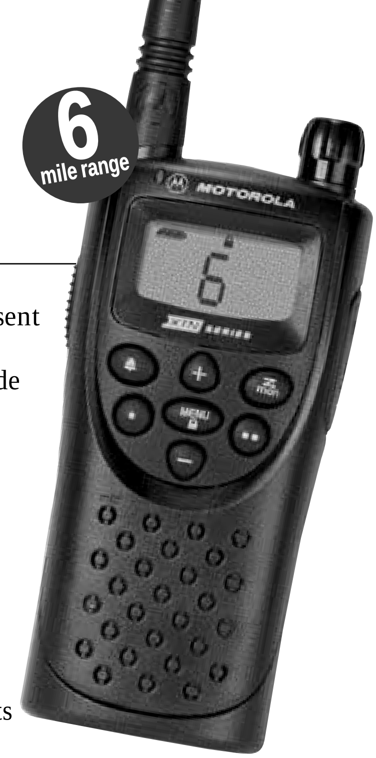

The GT series radios are sharp-looking, lightweight, and easy to carry and operate. FCC license is required.

- **Range up to 200,000 square feet,** 15 floors indoors, and 4 miles outdoors.
- **Voice activation (VOX)** with a headset lets you stay hands free while you work.

Motorola 1-watt UHF radios

Item #	Description	Price
6097D	Spirit GT 4-mile, NiMH with 1 channel and 38 codes	**$189.99**
6098D	Spirit GT+ 4-mile, NiMH with 2 channels and 38 codes	209.99

Heavy duty

The XTN™ series radios present Motorola's most significant advances in commercial-grade 2-way radios in 70 years. FCC license is required.

- **Superior range** up to 250,000 square feet, 20 floors indoors, and up to 6 miles outdoors.
- **Rugged Mil Spec 80 construction** handles all the rigors of your workday.
- **Voice activation (VOX)** lets you keep your hands free with or without a headset.

Shockproof, weatherproof, up to 6 channels, voice activation, exceptional range—XTN series radios have it all.

Keep your audience's attention.

If you've ever shown people around a facility, you'll appreciate the Listen Technologies tour system. Instead of shouting over background noise and rounding up people at every turn, just speak into your microphone in your normal voice. Everyone in your group can hear you up to 300 feet away. It's the perfect way to lead factory tours, nature hikes, media presentations, and multiple language tours.

- **Compact, comfortable transmitters and receivers** let people move at their own pace without having to crowd or strain to hear.
- **Comfortable headset** blocks most background noise so each person can hear clearly. Headsets are easy to clean.
- **57-Channel flexibility** lets you assign all receivers to a single tour, or as many as are needed for multiple tours.
- **Advanced NiMH batteries** last longer than NiCd batteries, and are easily recharged.
- **Wide range of options** lets you design a custom system to suit your unique needs. You can easily substitute components or add spares as needed. Call the headset experts toll free for details and pricing, or visit HelloDirect.com.

One over-the-ear microphone (above) and a varying number of compact ear speakers (right) are standard with each kit.

These tour systems deliver years of high-quality, dependable service. You can even choose the headset style you'd prefer.

Page them—up to 2 miles away.

Can't reach folks with a public address (PA) system because it's too loud—or they're too far? Try your own paging system! You get unlimited messaging with no monthly fees. And you have a huge capacity, too. Send 10 different message codes to as many as 1,000 pagers.

Choose vibrate-only pagers (Item #1663D) or tone/vibrate switchable pagers (Item #1664D). Each one has space for you to write out what each code means. That way the recipient will know just what to do when he or she receives your page.

- **5-Watt transmitter** sends your pages up to 2 miles away.
- **1,000-Pager capacity** supports a variety of needs. Ideal for factories, hospitals, worksites, restaurants, and more.
- **Group page capability** allows you to send the same message code to all your pagers at once.
- **Plus** enjoy large buttons and LCD. Wall-mountable, too.

Call by 3:30 p.m. Pacific Time to order your paging system, and we'll ship it out the same day. Need it tomorrow? Ask about overnight shipping.

CCI on-premise paging system

Item #	Description	Price
1662D	Paging system	**$179.99**

1664D	Tone/vibrate pager	89.99

Never run out of power! Get a spare battery for all your tools.

You're in the middle of drafting an important e-mail or closing a deal with a client when...zap...you run out of power. If you're tired of running out of juice just when you get going, opt for one of these high-end spare batteries.

Laptop batteries and chargers

Cellular phone batteries

Camcorder/digital camera batteries

Keep one charged in your briefcase or camera bag. When the infamous "low battery" light comes on, you'll be ready. Snap in a spare and keep talking, typing, or filming.

Each battery has been designed to your equipment manufacturer's exact specifications, so each will work perfectly with your laptop, phone, or camera. We have a huge selection of batteries for:

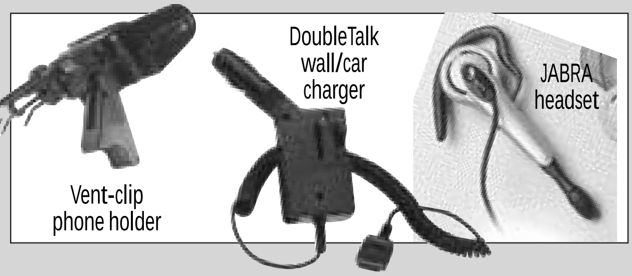

- **Laptops** including Apple, Compaq, Dell, IBM, and Sony.
- **Cellular phones** such as Nokia, Ericsson, Motorola, and Samsung.
- **Camcorders and digital cameras** from Panasonic, Canon, Fuji, Kodak, JVC, Nikon, and Sharp.

Call 1-800-444-3556 now. We'll find the right battery for your laptop, cellular phone, or camera. And if you order before 3:30 p.m. Pacific Time, you can have your batteries in 1 or 2 days. We guarantee fast shipping!

Save $30!

New $39.99 hands-free power pack combos include a DoubleTalk charger, vent-clip phone holder, and a lightweight JABRA® cellular headset.

Everything you need to talk hands free on your cell in 1 kit.

We've put together cool cellular car kits that let you power up and talk hands free at the same time. That lets you keep both hands on the wheel to drive safely. In fact, many state laws now require a hands-free kit if you want to talk while you drive.

All these components can total up to $69.99 if purchased separately. But you'll pay only $39.99 for the lot of them. That's a $30 savings! Each power pack includes everything shown above: universal vent-clip phone holder, DoubleTalk office/automobile charger, and a JABRA EarWrap™ headset.

New!

For Nokia 5100/6100/7100 model phones

Discover the newest, smallest, coolest thing to happen to wireless!

New!

Don't have a Bluetooth-ready cell phone? Choose from the standard 2.5 mm and Nokia models.

This headset (shown in its cool holder/charger) connects instantly, wirelessly to your Bluetooth phone.

Be one of the first to slip on FreeSpeak, the breakthrough wireless cellular headset.

If you're like most of us, getting tangled up in a cord while cruising down the freeway or walking to your building can be annoying, if not downright dangerous. This ingenious new headset frees you from cords, and frees you from hassles. It's lightweight, stable, and totally comfortable!

It's so discreet, others may not notice you're wearing it. Those who do notice will envy the compact, sleek design—and all the new freedom it gives you. Order yours today!

- **Weighs less than an ounce,** and it rests comfortably behind your ear. You may even forget you're wearing it.
- **Intuitive controls** include ON/OFF, volume, an LED with audible status indicators, and an answer/end button that lets you use voice activation (if your phone supports it).

JABRA® FreeSpeak™ wireless headset
